SUMMARY

Third-year B.Tech Computer Science student aspiring Software Developer with hands-on experience in React.js, Node.js, Express, MongoDB, SQL, and DSA. Built full-stack MERN applications with authentication, APIs, database integration, and optimized UI/UX. Actively preparing for software engineering roles in service-based and product based companies.

EDUCATION

2023 – 2027 Batch

Meerut Institute of Engineering and Technology

Bachelor of Technology (B.Tech) in Computer Science and Engineering

- Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Frontend Knowledge
- CGPA: 8.9 /10

2022 – 23

Meerut City Public

Higher Secondary (Class XII)

School , CBSE

- Scored 93%with a focus on Mathematics, Physics, and Chemistry.
- Ranked among the top 3% of the class

PROJECTS

ResCall – Resume Analysis Web Platform

- Built a web application using HTML, CSS, JavaScript, and React to analyze resumes against job descriptions.
- Improved user experience using smooth scrolling and animations.
- Focused on clean UI/UX design and accessibility for better usability.

StudyFlow – Smart Study Planning Platform

- Developed a platform to help students plan daily studies and practice quizzes.
- Designed interactive UI components using React and Supabase for better usability.
- Added instant AI explanations and a streak-based learning approach.

Smart Expense Tracker – Full Stack Application

- Built a full-stack expense tracking application using React.js, Node.js, Express.js, and MongoDB (basic backend exposure).
- Implemented CRUD functionality for managing daily expenses with proper validation.
- Generated monthly and category-wise expense summaries.

SKILLS

- **Technical Skills:** Java, JavaScript, React.js, HTML, CSS, SQL, DSA
- **Soft Skills:** Teamwork, Problem-Solving, Communication, Time Management

CERTIFICATIONS & ONLINE COURSES

Data Structures & Algorithms Specialization – Alpha Batch (Apna College)

- Learned fundamental and advanced data structures, including arrays, linked lists, stacks, queues, trees, and hashing.
- Solved over 80+ problems on algorithm optimization.

Web Development Bootcamp – Front-End Domination (Sheryians Coding School)

- Gained hands-on experience in front-end web development using HTML, CSS, JavaScript, React.js, API handling, Tailwind CSS, GSAP, Locomotive.

HOBBIES & INTERESTS

- Passionate about teaching mathematics and simplifying complex concepts, strengthening logical thinking and problem-solving abilities
- Building responsive web applications and exploring modern UI/UX design
