PROFESSIONAL SUMMARY

Software Developer with hands-on experience building scalable React-based web applications focused on productivity, automation, and user-centric design. Skilled in frontend engineering, secure backend API development, database integration, and performance optimization. Strong foundation in Data Structures, REST architecture, and deployable full stack product development.

TECHNICAL SKILLS

- Languages : Java, JavaScript (ES6+), SQL
- Frontend : React.js, HTML5, CSS3, JavaScript, Tailwind CSS, Responsive WebDesign, GSAP
- Backend : Node.js, Express.js, RESTful APIs, JWT Authentication
- Database : MongoDB , SQL, Supabase
- Tools & Platforms : Git, GitHub, VS Code, Postman, Vercel,
- Core Concepts : Data Structures & Algorithms, Object Oriented Programming, Database Management System

PROJECTS

AI RESUME BUILDER – AI-Powered Resume Optimization Platform

[Link](#)

- Engineered a student-focused career readiness platform combining ATS-based resume analysis, keyword optimization and guided improvement recommendations.
- Integrated an AI-powered learning assistant enabling users to understand resume mistakes, interview concepts, and domain-specific preparation in real time.
- Focused on performance optimization and delivering actionable, context-aware resume enhancement suggestions.

FEE MANAGEMENT SYSTEM – React-Based Student Fee Tracking Application

[Link](#)

- Engineered a responsive web application to streamline student fee tracking, including total, paid, and pending amounts
 - Implemented dynamic fee status classification (Paid / Unpaid / Partial) with real-time updates using React state management
 - Designed modular components and utilized React Hooks (useState, useEffect) for efficient data handling and UI rendering
 - Integrated LocalStorage for persistent client-side data storage without backend dependency
 - Developed an intuitive and user-friendly interface to ensure seamless interaction and accurate financial record management

EDUCATION

Bachelor of Technology – Computer Science & Engineering
Meerut Institute of Engineering and Technology
Higher Secondary – CBSE
Meerut City Public School

2023 – 2027
CGPA : 8.5
PCM : 93%

CERTIFICATIONS AND COURSES

- **Data Structures & Algorithms Specialization** – Alpha Batch (Solved over 150+ problems on algorithm optimization)
- **Web Development Bootcamp** – Front-End Domination (Gained hands-on experience in front-end web development using HTML, CSS, JavaScript, React.js, API handling, Tailwind CSS GSAP, Locomotive)
